

5445 MILLS CIVIC PARKWAY, WEST DES MOINES, IA 50266  
t: 515-288-0356 f: 515-333-5118

The following instructions are guidelines to be used for the proper fit of a tuxedo. It must be remembered that these are only guidelines and that there are exceptions to every rule.

**neck**

Measure around the neck until the tape is comfortably snug. Record exact measurements including half sizes.

**chest**

Measure around the fullest part of the chest keeping tape up under arms and across the shoulder blades. Add two inches to this measurement to get the coat size.

**coat**

Coat length is determined by the sleeve measurement. Use the chart below to order the correct coat length. **(Note: Coat Size is determined by the Chest measurement plus 2 inches).**

Coat Size	Sleeve Length	Coat Length
34-38	32" or less	Short
	33" - 33½"	Reg
	34" - 35"	Long
	35½" or longer	X-Long
39-43	32" or less	Short
	33" - 34½"	Reg
	35" - 35½"	Long
	36" or longer	X-Long
44-52	33" or less	Short
	34" - 34½"	Reg
	35" - 36"	Long
	36½" or longer	X-Long
53-60	33" or less	Short
	34" - 35"	Reg
	36"	Long
	37" or longer	X-Long

**Example:** Customer's chest measures 40" and his sleeve measures 34". The coat you should order for him is a 42 Reg.

**sleeve**

Measure from the center of the collar at the back of the neck, over the shoulder, the length of the arm to one inch beyond the wrist bone.

**waist**

Measure around the waist directly over the shirt (not over slacks or coat) just above the hip bones and over the naval. Keep two fingers between the tape and the customers body. The number of inches is the waist measurement.

**outseam**

Measure from the top of the waistline to where the pant should fall on the shoe; generally the top of the heel.

**inseam**

With pants pulled up to where the customer is comfortable, measure from pant crotch seam to where the pant should fall on the shoe; generally to top of the heel.
