

How To Tie a Windsor Knot

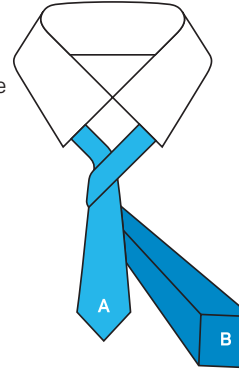

1

Start with the wide end (**B**) of the tie on your right side, extending about a foot below the narrow end (**A**) of the tie.

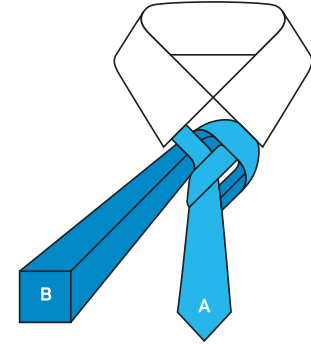

2

Cross the wide end of the tie (**B**) over the narrow end (**A**) and back underneath.

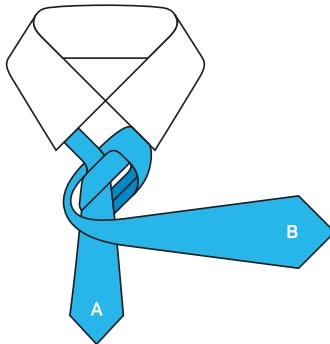

3

Bring the wide end of the tie (**B**) up and over itself, turning it down through the neck loop.

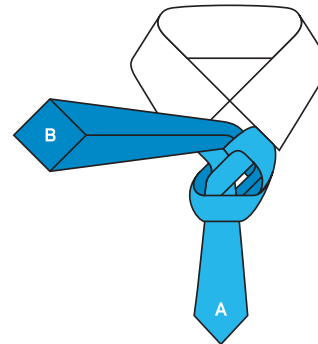

4

Pass the wide end of the tie (**B**) around the front of the tie (**A**), from left to right.

5

Bring the wide end of the tie (**B**) behind and up through the neck loop.

6

Now bring the wide end of the tie (**B**) down through the knot in front. Tighten carefully and draw the knot up to the collar.
